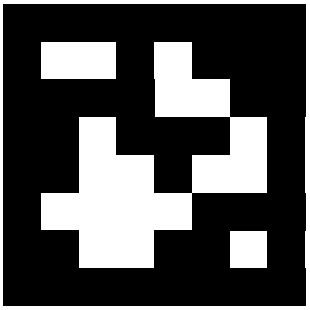
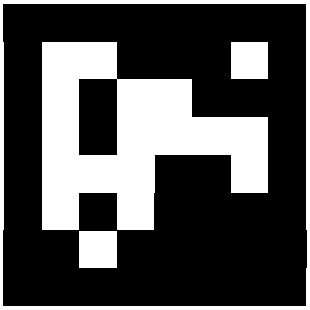
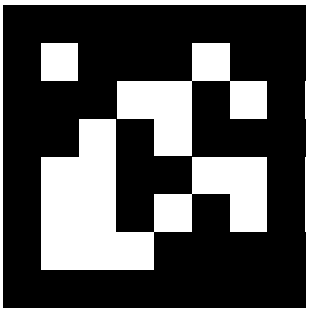
AR cube - TABLE CARD

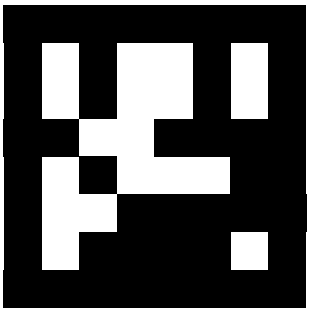
1. Print this page at 100 % (Actual size, no 'fit to page') on plain or matte paper.
2. Lay it flat on a table in good light, open the viewer on your phone and point it at the card.
3. The building stands in the circle. Walk around the card to see every side.





the building appears here





must measure 50 mm (print at 100 % / Actual size)

AR cube - PAPER CUBE (60 mm)

Print at 100 % on thick matte paper or card (160-250 g/m2). Cut along the outer outline (tabs included).
Crease every dashed line, fold the faces up, and glue each grey tab inside the neighbouring face.
Keep the printed faces flat and clean. Any face can point up; the viewer stands the building on top.
